- Midwestern University, Alumni Scholarship
- American Academy of Cosmetic Surgery: 2006 best scholarly manuscript, The Richard B. Aronsohn, MD Founder's Award.

RESEARCH & PUBLICATIONS:

- 2011 - The Double "C" Plication Technique: Sadati KS, Corrado A, A Reliable Technique for Lower Facial Rejuvenation: Review of 1500 Cases. The American Journal of Cosmetic Surgery vol. 28.No 1, 2011
- 2005 - Platelet Rich Plasma utilized to promote greater graft volume retention in autologous fat grafting. Sadati KS, Corrado AM, Alexander R. The American Journal of Cosmetic Surgery vol. 23. P 203-11, 12/2006
- 2004 - Malignant fibrous histiocytoma of the head and neck after radiation for squamous cell carcinoma, Sadati KS, Sataloff R. ENT journal April 2004.
- 2003 - Pleomorphic Adenoma of External Auditory Canal. Case report. Discussion of histological presentation and also surgical management of this tumor. Presented at AOCOOS meeting. Medical College of Pennsylvania.
- 2002 - Metastasis of Sebaceous Cell Carcinoma of the eyelid to the Maxillary Sinus. Presented at the AOCOOS meeting. Medical College of Pennsylvania.
- 1997 - Neurotology Research: 1) Study of CSF Leak after Acoustic Neuroma Surgery. 2) Development of an algorithm to reduce the incidence of CSF leak after acoustic neuroma surgery. These studies were based on analysis of 500 surgical patients chart, as well as literature search. These data were compiled into charts, graphs, and lecture material that were presented in Copenhagen Neurotological Convention by Dr. Richard Wiet. Northwestern University.
- 1991 - Wound Healing Research: Regulatory Effects of IL4 & NO Signaling on Osteoclasts & Osteoblasts. Bone marrow stem cells were induced to differentiate into osteoclasts and Osteoblasts, then IL4 and Nitrous Oxide were introduced to them. The results indicated that IL4 down regulates the Osteoblasts, and NO upregulates the Osteoblasts. UCSF Medical Center.
- 1992 - Breast Cancer Research: Morphology of Mammary Cancer Cell in Comparison with Normal Mammary Cells. Microscopic evaluation of cells to determine morphological changes in respect to pathological cells behavior. Lawrence Berkeley Laboratories.

HOSPITAL AFFILIATIONS

- Hoag Memorial Hospital, CA
- College Hospital, CA
